Materials received at the Mennonite Heritage Centre from the

NORDHEIMER MENNONITE CHURCH
(MG III-108)

via George Zacharias (1-306-373-7825)
Saskatoon, (Nordheimer MC) 1988

Nordheimer Mennonite Church is comprised of the Hanley Mennonite Church, the Dundurn Mennonite Church and the Pleasant Point Mennonite Church.

The materials were organized and listed by George Zacharias. His organization was left intact, but the following list was made by Jim Suderman, 31 July 1989, of the materials received. Microfilm projects #36 and #79 preceded this project (#150), and this project attempts to bring the microfilmed material up to ca. 1986. There may be some duplication of microfilming caused by somewhat imprecise inventories of Projects #36 and #79.

The following list shows where each item appears on the Zacharias inventory, as well as on which microfilms each item appears and the volume numbers indicating where the originals are held at the MHC Archives. Microfilm project #36 is contained on microfilms #187-188. Project #79 is contained on microfilm #225. Project #150 is contained on microfilm #420.
